24 Hour National Operator Service

When a pet has been found with our Dog ID tag, just a simple call to one of our operators will ensure that the pet will be reunited with its owner.

Although the pet may be micro-chipped it can be a hassle for the finder to take the pet to a Police station to be scanned. Our unique DogID tag holds up to 6 different telephone numbers and 2 addresses ensuring you or a nominated contact can be contacted when your pet has been found.
